T-SHIRTS HAVE ARRIVED

Please come by the Junior Building to pick up your shirt

Instructors Are Here!

Our instructors arrived on Monday, and have been working hard to get everything together for camp to start. Our instructors arrived over this weekend, coming from Florida and California. Throughout the week we cleaned, sorted, organized, and planned so that everything will look great for the first day. All the boats are clean, inside and out, and the gear is neatly organized by classes.

The instructors are working on lesson plans, and working to develop fun classes for the summer. The excitement is building as all of the instructors are getting ready to meet the children.

First Day of Class

Today is the first day of class and everything is running smoothly. All of the sailors arrived with smiles on their faces, ready for their swim and capsizes tests. The weather is great for the morning, with warm temperatures and sunny skies. The Creek Critters were even able to go kayaking this morning.

This afternoon the summer storm got in the way of the plans of some classes. Some classes made their way out on the water after the storm passed, and enjoyed the breeze. Everyone is looking forward to going sailing tomorrow, and more sunny skies.

Opening Ceremonies

Friday June 12 was the opening ceremonies of the Lester Trott Junior Building. We had over 200 people present at the ribbon cutting ceremony, and the families met their instructors and coaches.
